

## From the President's Desk:

It is my great pleasure to introduce the 2005 product catalog featuring our complete family of telephony components. New to this catalog is the VoIPerfect™ line of Voice over Packet (VOP) enabled telephony products. Together with our SmartWORKS™ product line, Ai-Logix now offers solutions to meet the needs of all major computer telephone segments.

At Ai-Logix, we are committed to building quality products, giving great service, and fostering long-lasting relationships. In fact, those are the guiding principles that have been an integral part of our success.

Working closely with our customers and listening to their needs has encouraged us to become a flexible company with versatile products. By partnering with Ai-Logix, you are doing more than just buying telephony cards; you are investing in the future of evolving technology in the CTI industry.

I am sure you will find everything you need to enhance your products in this catalog. We welcome your feedback and suggestions.

Thank you for your support of Ai-Logix and our products.

Sincerely,

A handwritten signature in cursive script that reads "Moshe Tal".

Moshe Tal  
President & CEO, Ai-Logix, Inc.

The logo for Ai-Logix, Inc. features the company name in a bold, white, sans-serif font against a dark grey background. Above the text, there is a horizontal line with several small white circles, resembling a punch card or a stylized graphic element.

AI-LOGIX, INC.

## INSIDE AI-LOGIX

Ai-Logix, Inc. designs and manufactures the finest hardware-based computer telephony integration (CTI) products for interactive and passive telephony applications. We are a subsidiary of AudioCodes, Ltd. (Nasdaq: AUDC, a leading provider of innovative, reliable and cost-effective Voice over Packet technology and Voice Network products.

Our headquarters are located in Somerset, NJ with local and international branches throughout the globe. We are committed to developing quality products, providing great service, and partnering with our customers to build long-term relationships.

Since 1991, we've provided complete analog, digital, and enterprise PBX support for various types of telephone and radio systems. We have raised the standards for telephony communications and take great pride in our ability to mix and match our technology to meet the evolving needs of the CTI industry. Our versatility arms us with a distinct competitive advantage unmatched by any other board supplier in the open market.
